

# **EPL Expands Production Capabilities with New Central Printing Facility in Poland**

- **Expansion of production capacities and improved delivery speed**
- **New showroom for customer collaboration and innovation**
- **Stronger focus on sustainability and economic responsibility**

**Sulechów, 25.11.2025:** EPL Europe will open a state-of-the-art central printing facility in Sulechów, Poland, in the first quarter of 2026. The new facility will have over 10,000 square meters of production space and represents an important step in strengthening EPL's European production network. With this investment, the company is underscoring its commitment to innovation, sustainability, and excellent customer service.

The new facility will provide improved access to advanced packaging technologies, ensuring innovative and high-quality solutions. Packaging printing at the site will include a wide range of printing processes, including labeling, flexographic printing, offset printing, digital printing, screen printing, and many other finishing techniques.

### **Sustainability and Economic Responsibility**

With this step, EPL demonstrates its commitment to sustainability and economic responsibility. By centralizing its printing activities, the company follows a strategy that is both environmentally and economically sound. The new facility will create modern jobs with opportunities for professional development. This investment supports not only the company's future but also that of its employees and customers. In addition to expanding production, EPL places strong emphasis on employee training and skill development.

### **Statement**

*"With the new location, EPL is strengthening its market position in Europe and driving growth. The central printing site marks a key milestone in our European expansion. It enhances our ability to serve customers with agility, reliability, and speed, and reinforces our commitment to sustainability.*

*Designed as both a production and innovation center, the facility will feature a dedicated customer showroom – a space for collaboration, creativity, and the development of next-generation packaging solutions. This investment sets new standards for quality, flexibility, and partnership in the European packaging industry,"* says Nevaneeth Selvan, President, EPL Europe.
